## About Institute

Camellia Institute of Technology & Management; CITM was established in 2009 with an aim to provide quality education and produce best engineers to work around the world. The Institute has modern infrastructure and facilities conducive to teaching-learning process. CITM aspires to be the centre for excellence in engineering and technical education in years to come.

CITM boasts of highly respected, qualified eminent personalities to develop students who are industry ready. Apart from world class teaching & support, students of CITM can also enjoy modern facilities of modern laboratories and vast campus. The college is approved by AICTE and affiliated to MAKAUT.

## Vision & Mission

With the said vision in mind or motto CITM shall not only be imparting world class scientific and technical knowledge amongst out students through our dedicated faculty but also to lay emphasis on disseminating knowledge among them through seminars, exhibitions, discussions and participation in debates in other Institutions as well as training in Industrial Houses / Projects. Emphasis will be given to character building and being disciplined. Sports and Games will be made compulsory for this purpose in the academic curriculum. CITM encourages and welcomes students of different countries, beyond the boundary of geographical barriers shall enrich their countries culture, understand each other in a better way and pave the way to world peace in the long run.

We at CITM aspire to establish a system of quality education which would be a continuous basis of evaluation and monitor the quality of education and training imparted at the Institute, improved teaching – learning process and ultimately develop the Institute as a Center of excellence.

## About the Program

Camellia Institute of Technology and Management has organised a one day Academic seminar on Distributed Generation, Microgrid and Medical Image Analysis. This programme has been organised in order to enhance the technical field of students and portray their genre or field of interest. This programme will help in inter and intra communication between and amongst different people. Allround development of a person is necessary and a seminar helps to open up a person's personality and to cope up with different eminent personalities
